

The problem with Love is: We only know how to love based on the way we have been loved or how we have loved - our own life experiences and our past life conditions.

**IS THIS BASED ON FEELINGS OR EMOTIONS WE HAVE IN OUR OWN LIFE?**

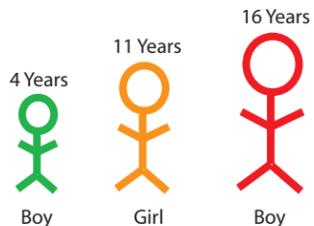

We only need to love what we do not like about ourselves 1% more than we have in the past to change our vibration.

**Our Family is Our Past**

**\* Other Factors Include:**  
CULTURE  
NATIONALITY  
RELIGION  
MALE VS. FEMALE

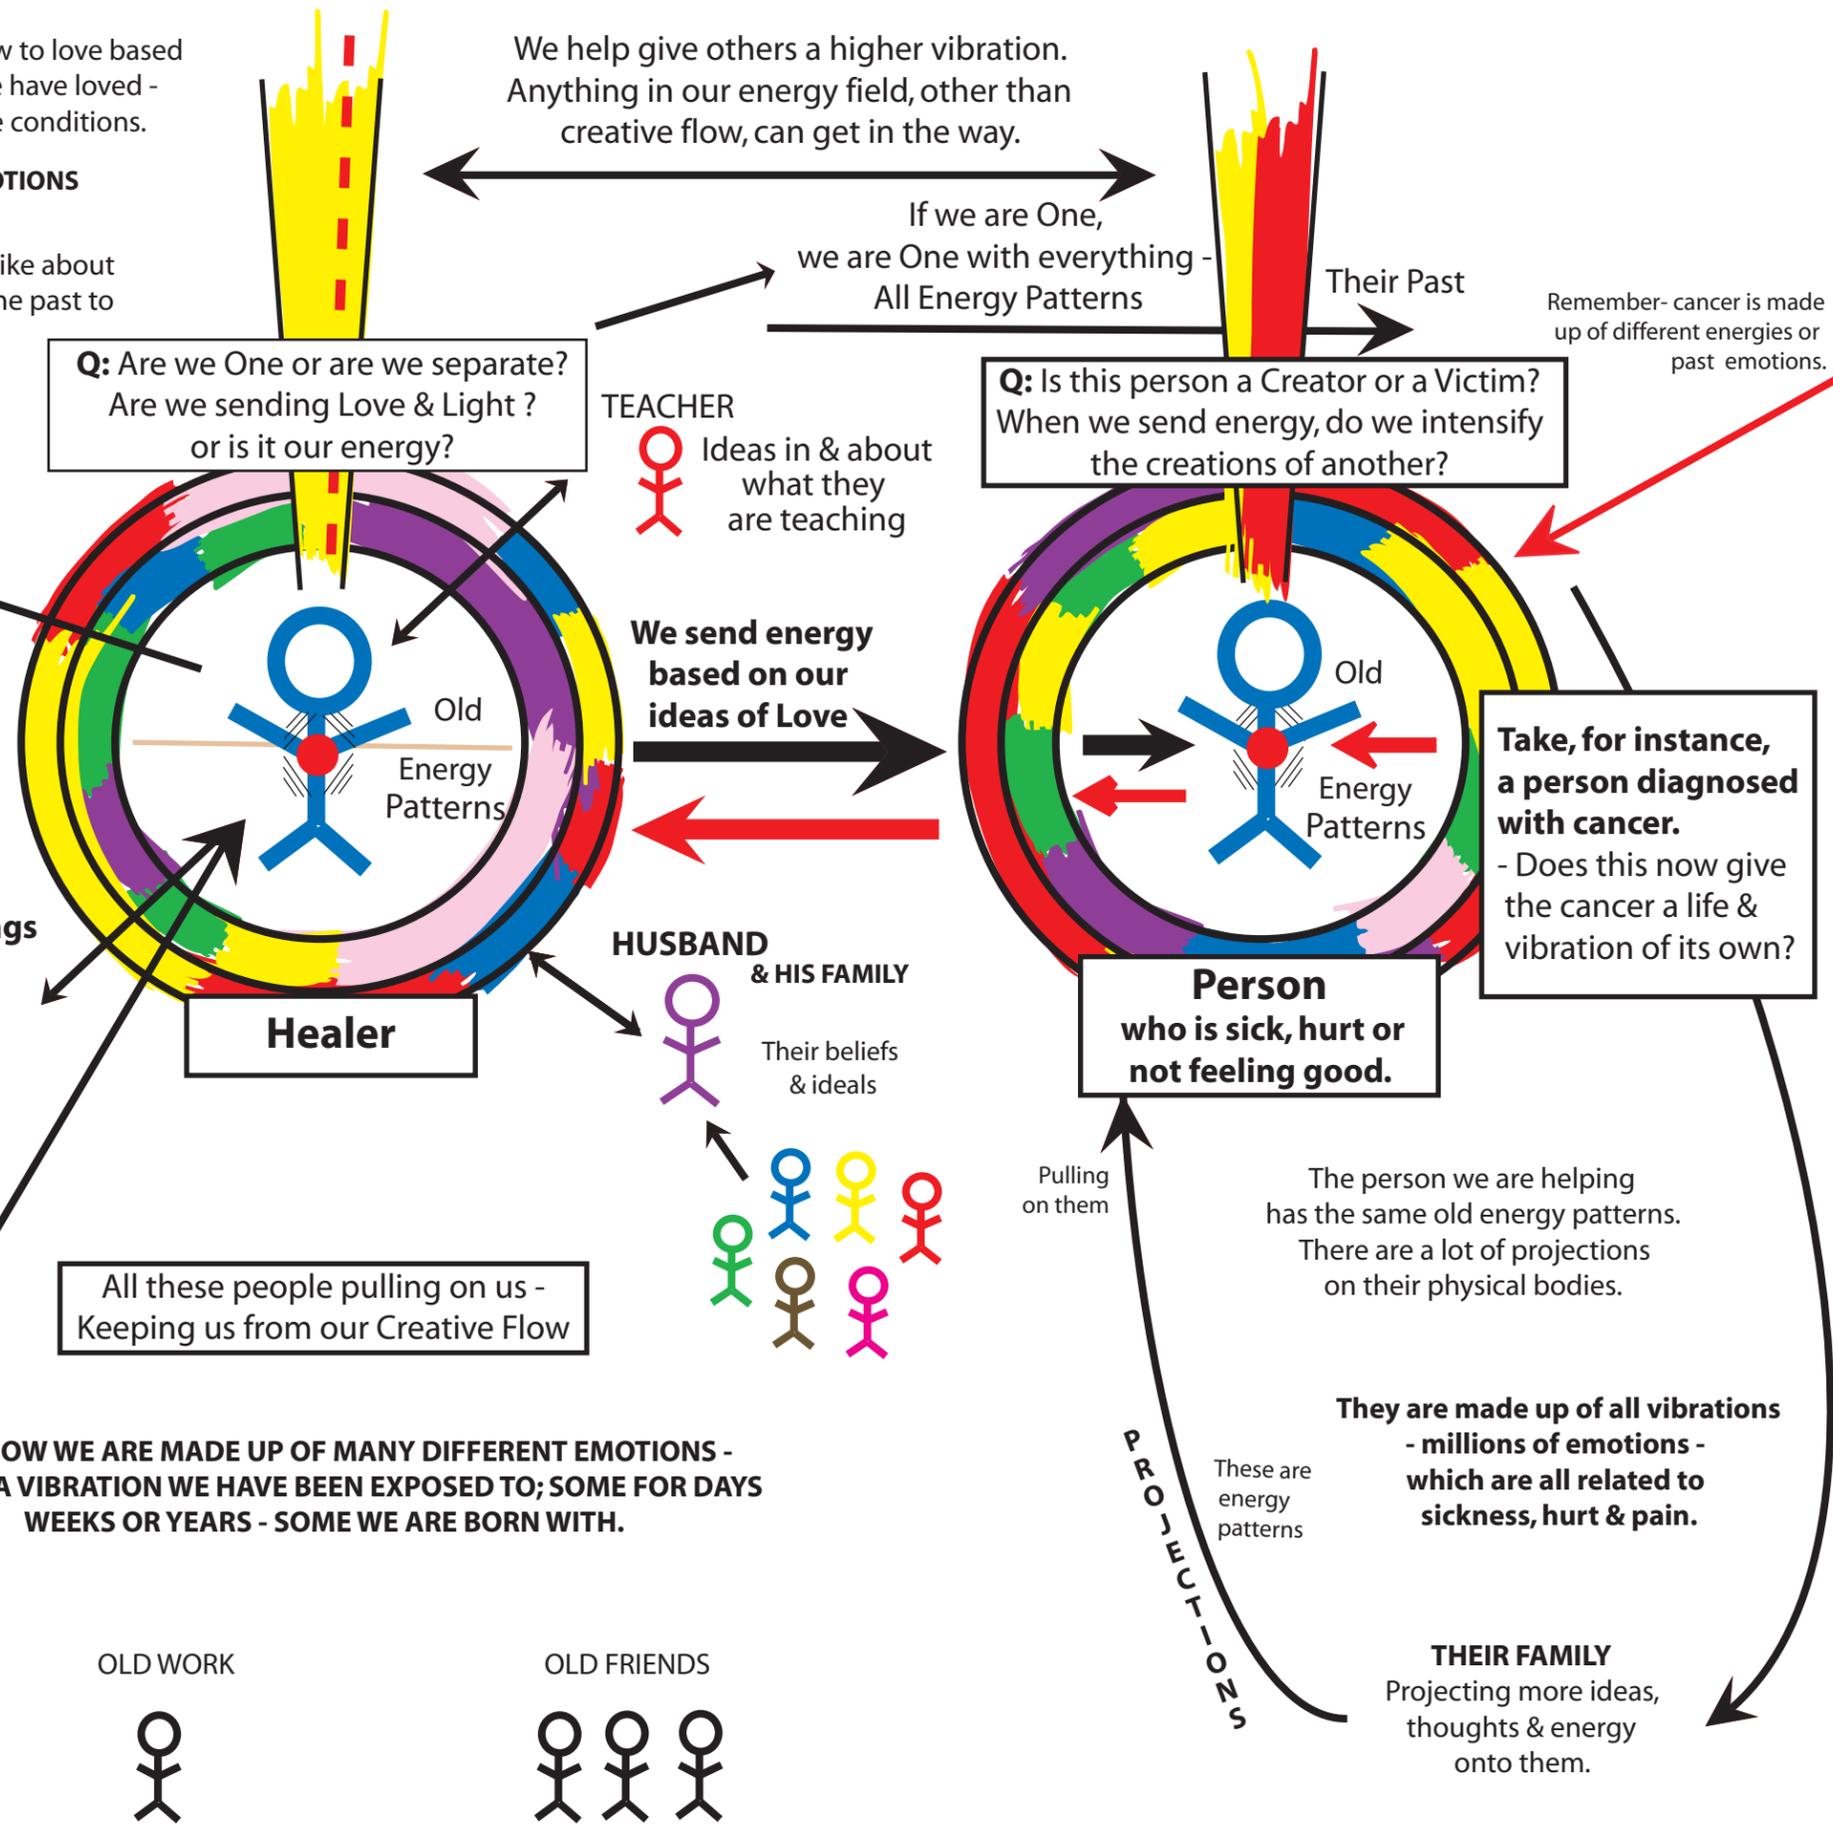

**Our Children And Their Feelings And Energy Patterns**

Their friends, family, even the energy surrounding schools are all examples of the dynamic patterns that involve them

There are hundreds of vibrations around us in our energy field.

**Past relations unresolved**

We help give others a higher vibration. Anything in our energy field, other than creative flow, can get in the way.

If we are One, we are One with everything - All Energy Patterns

**Q: Are we One or are we separate? Are we sending Love & Light? or is it our energy?**

**TEACHER**  
Ideas in & about what they are teaching

**Q: Is this person a Creator or a Victim? When we send energy, do we intensify the creations of another?**

Remember- cancer is made up of different energies or past emotions.

*Made up of old patterns - old energy*  
So, there is a vibration of cancer made by the feelings & emotions from the 5,000,000 people who have cancer

Is this collective consciousness attracted to its Creator or is it energy made up from history? - Almost all energy patterns come from the past

**OTHER PEOPLE WHO HAVE EVER HAD CANCER**

**Take, for instance, a person diagnosed with cancer.**  
- Does this now give the cancer a life & vibration of its own?

**Person who is sick, hurt or not feeling good.**

**HUSBAND & HIS FAMILY**  
Their beliefs & ideals

All these people pulling on us - Keeping us from our Creative Flow

**WE KNOW WE ARE MADE UP OF MANY DIFFERENT EMOTIONS - EACH IS A VIBRATION WE HAVE BEEN EXPOSED TO; SOME FOR DAYS WEEKS OR YEARS - SOME WE ARE BORN WITH.**

**OLD WORK**

When we Heal; do we have to heal our past?

**OLD FRIENDS**

The sick person also has this kind of past.

Pulling on them  
The person we are helping has the same old energy patterns. There are a lot of projections on their physical bodies.

**They are made up of all vibrations - millions of emotions - which are all related to sickness, hurt & pain.**

**THEIR FAMILY**  
Projecting more ideas, thoughts & energy onto them.

**PROJECTIONS**  
These are energy patterns

- A. Healer** - When we send energy by our thoughts, intentions, ideas (projections), does that affect our other relationships? Is there a form of transference based on what we have not yet looked at or are not yet aware of?
- B.** Do we intensify another persons creation (sickness/hurt/pain)?
- C.** Does a collective consciousness see us as merely more energy or does it see us as Creators?
- D. Afterwards** - Do we find ourselves feeling like we have just been run over by something or someone? It could even be days before we begin to feel better.
- E.** When we heal, do we heal our past? OR are we helping to heal the old energy of the collective consciousness?
